

TRUCLEAR[®] Hysteroscopic Morcellator

Knowing nature's most challenging obstacles
can be handled with care.

TRUCLEAR® Hysteroscopic Morcellator from Smith & Nephew.

Proven

- Over 30,000 cases of positive market experience
- Extensive history of positive user feedback

Effortless

- Continuous cutting and tissue removal means only a single insertion is necessary
- Localized treatment minimizes endometrial damage, which may help preserve the chances of pregnancy
- Proprietary suction control optimizes system fluid flow, intrauterine pressure, and device capability

Clear

- Patented dual outflow allows uninterrupted continuous flow for a clear operative field
- No tissue floating within the uterine cavity

Unencumbered

- No bubbles or electrical energy in the uterus reduces the risk of air or gas emboli
- No lateral distribution of thermal energy or energy discharge-induced scarring
- Visualized hysteroscopic approach may minimize safety risks

TRUCLEAR® Hysteroscopic Morcellator
